Montréal Sightseeing tour on an Electric Scooter

Hop on an electric scooter for a guided tour specially designed for you. Once you have practiced the scooter-driver-basics, and received instructions from your guide, let's go! First, it's the Quartier des Spectacles where summer festivals, such as the Montreal Jazz Festival take place. You will then head toward the Old Port, traveling by Place d'Arme, a true digest of Montreal's architectural history, and Notre-Dame Basilica, placed 4th as North America's most renowned and visited religious building. Your return will take you through Place Émilie Gamelin, a park where families, artists, students and business people meet to relax and enjoy activities all year long. Your frantic escapade will end at La Fabrique, a trendy French restaurant located between the Latin Quarter and the Plateau facing St. Louis Square, for a well-deserved meal.
